

A black and white portrait of Dr. Elie Levine, a man with dark hair, wearing a suit and tie, smiling slightly. The background is dark.

DR. ELIE LEVINE

PLASTIC SURGERY &
DERMATOLOGY OF NYC
NEW YORK, NEW YORK

American Board of Plastic Surgery

WHAT IS YOUR PHILOSOPHY?

My goal is to help my patients look and feel their best in the most natural way. It requires a certain level of thinking outside the box to attain maximum results. My consultations are lengthy because I want to fully understand what my patients desire, what is most important to them and how I can achieve their goals. I fully appreciate the importance of the decision to undergo surgery in a person's life.

WHAT ARE YOUR MOST-REQUESTED PROCEDURES?

A lot of requests for procedures are seasonal. In the fall and early winter I perform a large number of facial aesthetic procedures such as facelifts, rhinoplasties and necklifts. As we move into spring, and summer is nearing, patients tend to request body contouring procedures such as breast augmentation, abdominoplasty and liposuction.

DESCRIBE YOUR IN-OFFICE SURGERY SUITE.

Our state-of-the-art, in office surgery suite is fully accredited by the American Association for Accreditation of Ambulatory Surgery Facilities (AAAASF). Careful attention to patient safety is paramount. Our accreditation further reassures our patients of the stringency of our safety protocols and helps put them at ease.

A TEAM EFFORT

Dr. Elie Levine knows it takes a team effort to produce optimal patient satisfaction. Sharing a practice with his wife and partner, board-certified dermatologist Dr. Jody Levine, Dr. Levine feels confident he can provide the most comprehensive care. "During our medical training, Jody and I noticed there were often situations where our two fields overlapped, and we would frequently refer to each other's expertise in order to best suit our patients' needs," he says. "We offer expertise from two different backgrounds, and we work as a team to give our patients comprehensive care in one facility where they can accomplish all of their aesthetic goals."

CASE 1

CASE 2

MOMMY MAKEOVER

This 37-year-old patient underwent a Mommy Makeover involving a tummy tuck, breast augmentation and flank Smartlipo™ lipo-sculpting for a slim shape.

YOUTHFUL DEFINITION

Concerned with the appearance of her aging face and neck, this 52-year-old patient underwent a facelift and necklift to add youthful definition.

"I AIM TO MAKE YOU LOOK YOUR BEST IN THE MOST NATURAL WAY"

A BOARD-CERTIFIED PLASTIC SURGEON AND ASSISTANT CLINICAL PROFESSOR OF SURGERY AT MOUNT SINAI MEDICAL CENTER, DR. ELIE LEVINE UNDERSTANDS THE UNIQUE ANATOMY AND INDIVIDUAL GOALS OF EACH PATIENT. COMBINING HIS TECHNICAL SKILL WITH AN ARTISTIC EYE, DR. LEVINE CUSTOMIZES TREATMENT PLANS FOR HIS PATIENTS. IN PRACTICE WITH HIS WIFE AND RENOWNED DERMATOLOGIST, DR. JODY A. LEVINE, DR. LEVINE IS ABLE TO OFFER A COMBINATION APPROACH THAT BLENDS CUTTING-EDGE PLASTIC SURGERY TECHNIQUES WITH ADVANCED DERMATOLOGY FOR OVERALL COSMETIC REJUVENATION. "WE ARE CONSTANTLY LOOKING TO IMPROVE THE LIVES OF OUR PATIENTS," HE SAYS.

WHAT IS YOUR FAVORITE PROCEDURE?

I love all surgery, but facelifts are my favorite as they require a true art to attain natural-looking, long-lasting results.

WHICH SURGICAL ADVANCES ARE YOU EXCITED ABOUT?

The surgical options for massive weight-loss patients are remarkable and continue to improve. After patients lose a tremendous amount of weight, and improve their health, they still have a significant amount of excess skin and laxity. The surgeries that can fix this problem have a large cosmetic component to them, and this is an area that continues to see great improvement. Post-bariatric surgery is most gratifying to me, as weight-loss patients are ecstatic about their wonderful cosmetic results.

WHAT DO YOU LIKE ABOUT YOUR JOB?

I enjoy making people happy. In addition, I appreciate the many nuances in anatomy and the tremendous creativity that is involved in my work.
