HOW DO YOU MANAGE PATIENT EXPECTATIONS?

When it comes to treating my patients, I like to start by explaining the details in an understandable way. I go through each option that is able to address their concerns, ranging from the more conservative to the more aggressive, and explain the expectations for each with an objective analysis. I truly believe that an informed patient is a happy patient.

WHAT DO YOU LIKE MOST ABOUT YOUR JOB?

The world of dermatology is incredibly vast. There is so much science behind it, and we as doctors continuously research to improve our understanding of the skin and stay on the forefront of technology and medicine. I love being able to make people look better, live healthier and feel happier.

OUR DISTINGUISHING FACTOR

Dr. Jody A. Levine believes in offering her patients a top-notch level of care, which starts with the physicians she works with. Teaming up with her husband, plastic surgeon Dr. Elie Levine, Dr. Levine is able to provide a host of skin-care options that might not have otherwise been available. "I spend a lot of time with my patients to determine the best treatment for their concerns," she says. "Sometimes fillers do not achieve the patient's actual goals, and maybe what they really need is surgery. It is also true for the vice versa. Working with my husband distinguishes our practice. We are able to give the patient what he or she really needs."

BEFORE

AFTER

CASE 1

▶ LASER SKIN REJUVENATION

To rejuvenate this patient's skin, Dr. Levine performed her signature Manhattan Peel, which combines the power of a microlaser peel with the tanning effects of a fractionated laser.

BEFORE

AFTER

CASE 2

▶ NATURAL-LOOKING LIP ENHANCEMENT

Dr. Levine used one syringe of Restylane to give this 64-year-old patient the fuller, but still natural-looking, lips that she had long desired.

"OUR PRACTICE IS MODELED AFTER THE FINEST HOTELS AND SPAS SO THAT EVERY PATIENT FEELS LIKE A VIP," SHE SAYS. "THE INTERESTS AND GOALS OF OUR PATIENTS ARE PARAMOUNT."

WHAT QUALITIES MAKE A GOOD DERMATOLOGIST?

Good dermatologists are detailed and comprehensive, as well as warm and caring toward their patients. I treat my patients like family, and personally I think that is what makes the best doctor.

WHAT IS YOUR FAVORITE LASER PROCEDURE?

The BBL photofacial, which is used to eliminate both red and brown pigmentation and signs of sun damage from the face and body, is certainly the laser procedure I find to be most satisfying. Results are immediate, with no downtime, and the treated skin has a younger, more beautiful glow.

DESCRIBE YOUR APPROACH.

I practice both pediatric and adult dermatology, both medical and cosmetic, which allows me to take care of the whole family and address the skin concerns of every age group.
